Non-financial information 2024

Putting technology at the service of people also means taking responsibility for the impact we generate on our environment and embracing ESG (Environmental, Social, and Governance) criteria. It means creating value through technology. That is why, with the purpose of being a responsible and transparent company, we measure our true impact through the preparation of the company's verified 2024 Non-Financial Information Statement (EINF).

Cuatroochenta's High Performance Center in technological training

Learn more

The #Enmodoavión talks

#EnModoAvión is a project aligned with Cuatroochenta's commitment to responsible innovation (RRI) to reflect on the impact of technology on society by offering open debates of generalist and informative tone. The itinerant cycle of talks aims to promote the exchange of ideas and the participation of guests and attendees to contribute to a more informed, responsible and intelligent use of technology.

In each area of knowledge, Cuatroochenta partners with different entities or organizations with the aim of approaching the talks combining rigor and critical spirit, with leading experts of reference, to discuss in a close and accessible way.

The #EnModoAvión talks have been held since 2017 and have addressed the relationship between technology and education (Castelló), health (Madrid), food (Zaragoza), Smart Cities (Valencia), retail (Barcelona), the elderly (Madrid), cibersecurity (Panamá) and work (Burgos).
