## 480

*Updated: april 2026*

Cuatroochenta is an international technology group dedicated to **acquiring, developing, and investing** in innovative technology, specialized knowledge, and cybersecurity companies.

# About Cuatrochenta

As a business group, Cuatrochenta integrates an ecosystem of specialized companies whose solutions (ranging from enterprise cloud software to advanced cybersecurity services) enhance the performance and digital transformation of organizations across multiple sectors. The company acts as a strategic parent that provides its subsidiaries with financial resources, synergies, and long-term vision, while maintaining operational autonomy and the unique identity of each company in the group.

## Non-financial information 2025

Through our initiatives in talent, knowledge, and responsible innovation, we work to build a safer, more efficient, and more inclusive digital environment, moving toward sustainable, long-term growth. With the purpose of being a truly responsible and transparent company, we measure our true impact through the preparation of the company's verified NFIS.
